Forecast for Monday 23 Nov 2020

Weather: A mainly dry and bright start to Monday then cloudy. Rain reaching Mull and Lochaber later in the morning, extending to all parts early in afternoon, preceded by snow above about 900m. Rain will become heavy with extensive hill fog.

Chance of cloud free mountain/hill tops above 800m: 70% for a time in the morning then little chance with clouds coming well down the hills.

Visibility: Good at first, becoming poor from west later in the morning, even very poor at times in the afternoon as rain and snow becomes heavier.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Very strong winds over higher ridges/summits with temperatures close to freezing making it feel bitterly cold. Rain and sleet increasing the chill effects.

Forecast for Tuesday 24 Nov 2020
Weather: Cloudy with further outbreaks of rain. The rain will be heavy at times with extensive hill fog. The rain will turn to sleet or snow over tops of the munros.

Maximum wind: Less windy with southwesterly winds of 20 to 30mph and gusts 40mph.

Chance of cloud free mountain/hill tops above 800m: Chances will remain very small. Extensive cloud cover around 600 to 700m with patches lower down at times.

Visibility: Generally misty with occasionally poor visibility in heavier rain.

Temperature: **Glens:** Plus 8 Celsius.
At 800m: Plus 2 Celsius
Freezing level: 1400m lowering to 1100m.
